### Notes

- Above charges are HSBC UAE charges only.
- Other charges including beneficiary bank(s) and their correspondent bank(s) charges may be deducted from the remittance amounts irrespective of the charge method selected.
- The beneficiary of a remittance may be required to pay additional charges depending on the conditions set by the payment system, remitter, remitting bank, or beneficiary bank. For example, for outward payments when the ordering party selects to pay all charges, HSBC will process the transaction with the charge type 'OUR', however, it is important to note that some local country clearing systems do not recognize this charge type including payments that are cleared through the Federal Reserve or Clearing House Interbank Payments System (CHIPS) in the USA. For this reason, correspondent banks in the USA may change the charge type from 'OUR' to 'SHA' or 'BEN' when routing the payment to the final beneficiary bank.
